F. M. Warnick
Area Engineer
Bureau of Reclamation
Ogden, Utah

Re: Weber River

Dear Mr. Warnick:

We find it very difficult to record properly the water released by you into the Weber River, above Gateway, from your power plant. It is imperative that a procedure be worked out, so that this water may be accurately measured and recorded.

You should contact Mr. Edward H. Southwick, Weber River Commissioner, and go over the required devices needed so that this problem may be beneficially worked out for all.

If you have any questions concerning this matter, or if we can be of service, do not hesitate to call on us.

Yours truly,

Wayne D. Criddle,
State Engineer
